

Name _____

Principles of Epidemiology

Skyline Health & Medicine Biomedical Sciences Program

Mr. Bradley

LRHW Interview (Defining Epidemics)

Due _____

Q: When you hear the word epidemic, what diseases come to mind?

Assignment; Please ask this question to 8-10 people you know, allowing them time to think and give you an answer. Be sure to find people of different age groups (your parents, grandparents, aunts/uncles, friends, siblings, teachers, principal, counselor). List their answers and ages in your notebook.

Please answer the following questions. Thank you.

- A. Are there any answers that surprise you?
- B. How do the answers of the oldest people interviewed compare with those of the youngest?
- C. Why do you think there has been such a change? Explain
